PROFESSIONAL EXPERIENCE

Code for America

2015 Fellow | January 2015 – November 2015

- Collaboratively built three applications to transform the City of Pittsburgh's procurement practices
- Architected and led design of the pilot website for Beacon, the City's new tool for notifying businesses of upcoming contracts
- Built features around user need, conducting UX research sessions with City staff as well as local business owners

City of Philadelphia

GIS Specialist | August 2013 – December 2014

- Supported city open data initiative, managing organizational data requests and preparing data for public release
- Provided technical and data assistance, working with city departments to assess needs and recommend solutions
- Designed and produced cartographic products for release in print and on phila.gov/map

GIS Intern | June 2013 – August 2013

- Analyzed geospatial data to help focus and refine dropout prevention and college-access campaigns
- Built PostgreSQL database of geocoded student records as the backend for interactive map of dropout patterns by neighborhood

PNW Cooperative Ecosystem Studies Unit

Cartographic Consultant | April 2009 – December 2014

- Produced intuitive maps and graphics used in traditional use discussions on public lands, published in 5 NPS reports
- Provided research and transcription support, contributing to primary source management efforts

University of Oregon Infographics Lab

GIS Analyst & Cartographer | December 2008 – June 2010

- Designed and documented improved workflow for CAD data migration to room-level GIS used in UO mobile app
- Managed NHD stream dataset for OWEB Fish Project Viewer interactive map

EDUCATION

M.S. in Geography, August 2012

The Pennsylvania State University

Thesis Title: *The Rise and Fall of NAYA Park: The Politics of Vacant Lots and Urban Nature in Portland, Oregon*

B.A. in Geography, June 2009

University of Oregon

With departmental honors
